

What Is WMC Direct?

We at Westminster Medical Clinic believe all employees and employers should have access to healthcare and the opportunity for health, wellness, and healing.

Direct Primary Care is an alternative way to pay for primary care. WMC Direct is WMC's Direct Primary Care option.

With WMC Direct, your employees will receive all-inclusive services at WMC at an affordable monthly fee with discounts on other products and services.

Is WMC Direct Right for Your Business?

- Are you looking for ways to keep your employees safe and well during COVID-19?
- Are you interested in maintaining or increasing your business productivity?
- Are you concerned about your employee absenteeism?
- Are your health insurance plans and options too expensive?

If you answered yes to any of the questions above, WMC Direct may be a good option for your company.

WMC Direct + Insurance Options

WMC Direct covers primary care services at our office. It does not include specialist visits, hospital visits or medications. Although not required, WMC Direct works best with a high deductible insurance plan with a low monthly premium. The high deductible plan will cover your employees' medications, hospital visits, or unexpected illnesses or injuries which requires specialist care, while WMC Direct will cover all of their primary care needs.
